

Alice Supper Bubble Max

Water Mill Cleaning

BUBBLE CLEANING.

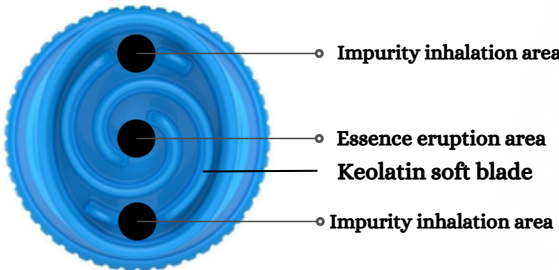

A new generation of instruments, breaking through the technical level of traditional small bubble instruments, can open pores, soften keratin, make skin cleaner and deeper, improve great of the dark skin and blackheads, and make skin clean, white and tender.

Vaccum negative pressure, cooperate with negative pressure to suck all the dirty things away from the face.

What is its special feature?
Operation head with triple efficiency.

The three major areas and the division of labour are clear, which can play three times the effect at a time.

Shiny and beautiful , Deep into the pores to take away dirt, sweep and discharge.

Accelerate the improvement of acne pits and acne marks and shrink pores

Get rid of blackheads and improve dullness.

Accelerate the improvement of acne acne marks shrink pores Blackheads improve dullness

Oxygen bubble

- The formation of oxygen supply environment, activated cells to enhance absorption, Leading the products into deep skin layer. Accompanied with the fruit acid products to achieve the result.

Vibration Atomization

- Ultrasonic vibrations of 1 to 3 millions per minute Frequency, open the pores, make the ingredients fast Rapid penetration into the basal layer of the skin, allowing absorption rate more than 90%

Spray

- High pressure oxygen injection, particle penetration, deep into the muscles The skin layer enhances water retention by narrowing pores more easy to absorb.

Diamond dermabrasion

- Nano-crystalline is prompted be opening absorption channels in skin Absorption into skin care products, so use nano-crystalline import when the skin care products can be more absorbed into the skin.

Cold & Hot

- Fast skin qualitative, achieve the effect of anti-allergy and skin shaping.

Tripolar HR

- The probes sends out tremors of up to six million per second Radio waves, high frequency vibrations can make skin The molecules in the skin generate heat from friction, which creates heat to the skin firming, improve the effect of wrinkles.

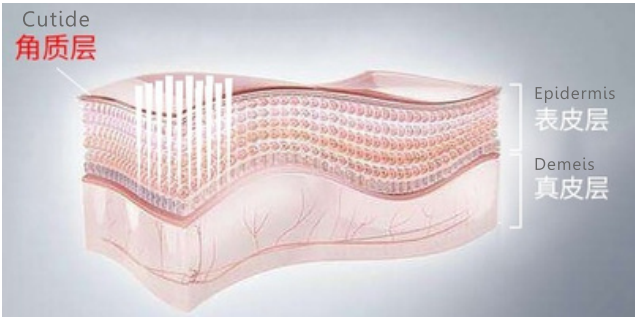

Bipolar HR

- The probes sends out tremors of up to six million per second Radio waves, high frequency vibrations can make skin The molecules in the skin generate heat from friction, which creates heat to the skin firming, improve the effect of wrinkles.

OPENED THE STRATUM CORNEUM OF THE SKIN SKIN CARE PRODUCTS CAN BE FULLY ABSORBED BY THE SKIN!

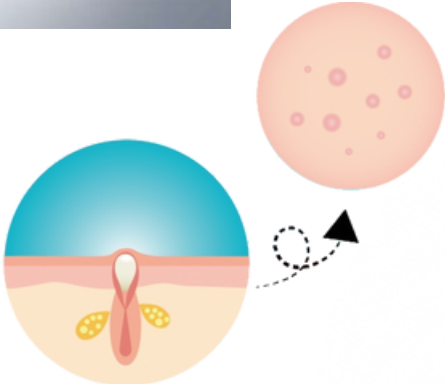

Deep cleansing skin system, clean blackheads, acne, mites;While moisturizing nutrients supplying ; fine pores, increase the skin Transparency; improve skin texture

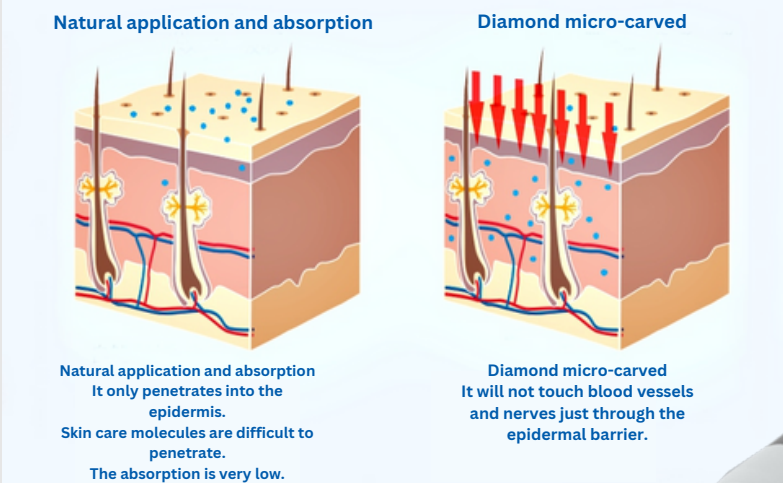

ANTI-ALLERGY SOOTHING REPAIR

SKIN TIGHTENING

FIRMING SKIN FILLING SKIN CELLS

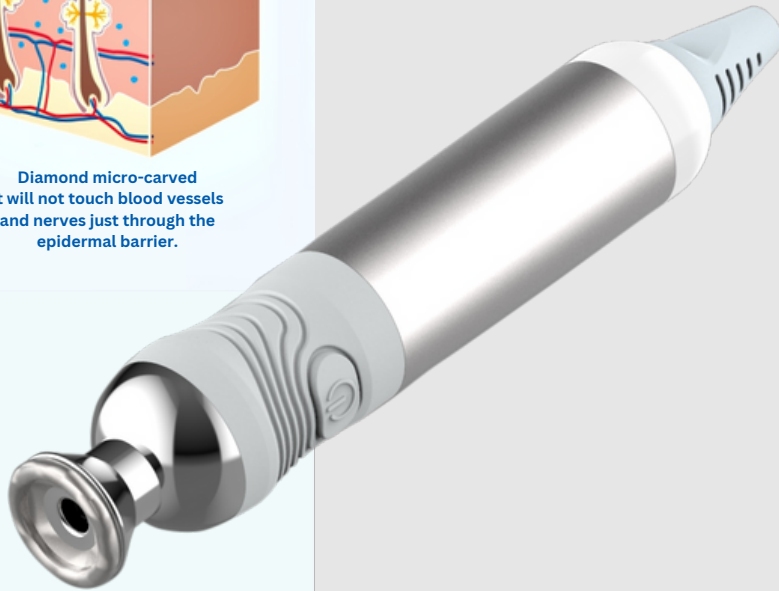

Nano-grade diamond particles grind to remove dead skin
and soften the stratum corneum.
Promote the absorption of products
if it does not touch the dermis, it will not damage the skin.

The principle of diamond micro-carving.

- 1. Diamond micro-carving is made of diamond particles. In addition to being tough, diamonds can also soften the cuticle and open up the epidermal absorption disorder layer. It is far from touching blood vessels and nerves, so it does not feel pain or bleed.
- 2. Diamond micro-carving promotes the absorption of skin care products by opening the skin absorption channel, so when using diamond micro-carving, skin care products can be absorbed more by the skin.

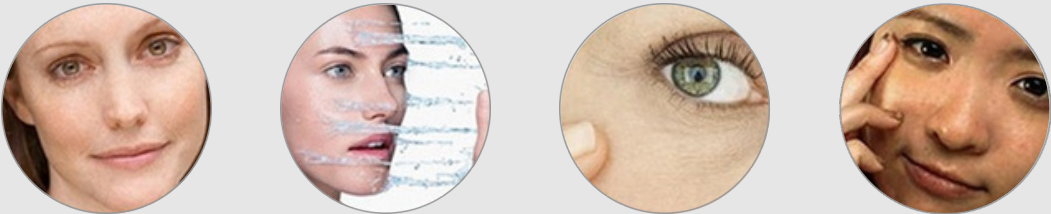

Promote product absorption
Painless and invasive
SAFE EFFECTIVE

ALICE SUPERBUBBLE

| Specifications | |
|----------------------|--|
| Voltage: | 100~240V 50Hz 60Hz |
| Power : | 100W |
| HR frequency : | 0.2-0.5 Mhz |
| cold and hot scope : | Cold 0-6°C Hot 36°-46°C |
| Ultrasound: | 1.1MHz |
| Probe: | 3 soft heads, 8 hard heads |
| Clean water mill: | Positive pressure 4-5Kg Negative pressure 96Kpa.Flow≤50L |
| Display: | 10.4 inches Resolution: 1024X600 |
| Solution bottle: | A.Deep layer cleaning B.Whitening and moisturizing C. Deep cleaning D. Instrument piping cleaning |
